

Larkya Peak Climbing

Trip Overview

Larkya peak climbing is one of the most famous and beautiful peak climbs in Nepal, it is situated in the Manaslu Himal range in the western part of Nepal in Gorkha district. Karke peak is situated at 6416m elevation from sea level. This peak stands attractive at an elevation of 6,416m above the sea level in Manaslu Circuit trek (Larkya Pass 5140m). This Larkya peak, it was only since 2002 that this peak was permitted to climb. [Nepal Mountaineering Association \(NMA\)](#) has listed as group "A" trekking peak to Larkya Peak. For Climbing Larkya peak, we need only 3 days more in Manaslu Round trek itineraries if you have good enough acclimatisation. You will get mixed climbing over there, like rock faces, big glaciers, vertical faces and snow. I really hope you will be able to enjoy a lot while climbing to Larkya peak.

The trail to the peak goes northward passing through many Tibetan origin villages and these villages will give you an opportunity to discover their customs and cultures, monasteries, prayer flags, prayer wheels and prayer walls. Although a few trekkers go to this region, there is no doubt that the peak climbing is going to be exciting and unique for adventure and striking natural wonders, this peak climbing is ideal to plunge in. The region surrounds elegant and pure natural beauty but has remained isolated so far. Also a combination of [Manaslu Circuit Trek](#) and Larkya Peak is a very pleasing adventure offering rather undemanding climbing along with magnificent views of [Manaslu](#), the [Annapurna](#), Ganesh Himal and beyond. For Larkya peak climbing, the best season is Spring (March - May) and Autumn (September - December).

Larke Peak climbing 6416m is one of the best peak climbs in Manaslu Himal Range, which looks above 5800m to 6500m peak of Nepal Himalaya. It is located in between Gorkha/Kaski district in Nepal.
